Commissioner Sandy Praeger Distributes Firefighters Relief Monies

TOPEKA, KS – Kansas Insurance Commissioner, Sandy Praeger, announced today that more than \$8.5 million is being distributed to the Firefighters Relief Fund this year. This important fund is used to assist firefighters and their families when accidents or death occur in the line of duty, and is administered by the Kansas Insurance Department.

“This fund is crucial to assist firefighters and their families when an accident happens in the line of duty and I am proud to be able to administer this important benefit,” said Praeger. “I know that Kansans sincerely appreciate the sacrifices our firefighters make everyday to protect all who live in this great state.”

The Kansas Firefighters Relief Fund is generated by a 2% tax on the fire and lightning insurance premiums paid in the state for the previous calendar year. This year’s distribution of \$8.5 million represents an increase of about \$200,000 from last year’s figures.

The fund’s distribution is divided into these main areas:

- The majority of the fund is distributed to the [579 Firefighters Relief Associations](#) throughout the state, and is based on the amount of fire insurance written in the area each association serves.
- More than \$260,000 goes to the Kansas State Firefighters Association, Inc., as a fund for educational purposes and research into fire prevention and extinguishment.
- A portion of the distribution is also used to replenish the death benefit fund, which is administered by the State Association. This year, that amount is \$96,772.

Last year, 3 Kansas firefighters suffered death in the line of duty, while 140 firefighters were injured as a result of a fire and 121 firefighters were injured in other non-fire related accidents. A total of 171,000 fire alarms were sounded in Kansas in 2004. Nearly \$1 million in benefits was paid to firefighters for lost wages as a result of fire department-related injuries or disability, and nearly \$500,000 was paid to dependents of firefighters.
